

How to do.....

Paint a pebble

It is good to be ready for whatever you will be doing but sometimes we get distracted when we should be preparing. Decorate a pebble to remind you.

You will need:

A clean pebble
Paints or felt tips

What to do:

1. Make sure that your pebble is clean – if you are not sure then give it a wash.
2. Find the smoothest part of the pebble – that's the best part to decorate.
3. I have written 'be ready' on mine and decorated around it.
