

How to do.....

Names for God dominoes

(particularly suitable for those aged 5+)

There are lots of ways to describe God. In this activity they are used to play dominoes!

You will need:

Printer

Colours (if your printer doesn't do colour printing)

Scissors

What to do:

1. Download the template and print, in colour if possible, on thin card – please note there are 9 pages. (If you don't have a colour printer, do it in black and white and colour in. If you don't have thin card, print on to paper and stick to card from a cereal packet or similar)
2. If you can, and you want to, laminate the sheets.
3. Cut out the dominoes and use to play the game. As you do, you could think together about what the names might mean in a way that is relevant to your child/children.

Alternatively, you could just do several copies of page 1, cut out each separate name/picture, and use them to play snap or the memory game.

Or something else entirely – let us know!
