

Our parish badge

Some people find it hard to sit still and need to do something to concentrate. Colouring can be a really good way to stop our thoughts wandering, we have to think about what we are doing so as not to go over the lines.

Try colouring our parish badge. You may have seen it on posters or outside the church. Are those people in the doorway going out or coming in? What do they look like? I wonder what they have been doing inside church?

You will need to print the blank sheet of the logo.
