

A special place to talk to God

Many people have a special place where they can feel very close to God and they like to go there when they want to talk. Sometimes these places are nearby but they may be far away so people may have a picture of that special place or maybe they can imagine they are there even when they are not.

Try drawing a picture of somewhere that is special for you, it could be where you have been on holiday, or been with a special person. I have drawn me sitting in the park near our house because it is somewhere that I like to go.

You will need:

Paper

Felt tips or crayons or paint

What to do:

Go on, just draw your special place.
